

Portable Tripod Projection Screen Operation Instructions

To Set Up the Screen

- 1) Open the tripod and rest it on the floor.
- 2) Slightly raise the telescopic bar. Use latch to secure it.
- 3) Rotate screen case to horizontal position.
- 4) Pull surface handle up and hook it on the gooseneck.
- 5) Release the telescopic bar and raise it to the desired height. Use latch to secure it.
- 6) Grasp the handle case and move the case up or down to the desired height. Use latch to secure it.
- 7) Surface may be tensioned by moving the case or telescopic bar slightly up or down.

To Take Down the Screen

- 8) Release the handle and proceed in reverse order.
